The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed August 16, 2004 have been convincing. It is considered that the claimed formula in claim 1 implies a compound wherein the silane functionality is covalently bonded directly to the aromatic functionality and that such is not taught by Ikenaga and Hiyama.

Applicant's affidavit is considered to remove the rejection over Spivak et al. since it establishes that the invention was not known or used by others before the invention thereof by applicant, since Ryan L. Simon is not considered an inventor with respect to the conception of the reactions claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell can be reached on 571-272-1364. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
